2x Smart Cube Stereo Shutter

Smart Cube Stereo Shutter

EASY OPERATION

1. Push Button: Power/Play/Pause/Answer Calls

- Press and hold the Push Button on both cubes to power On/Off.
- Short Press the button to Pause when music is playing.
- Press the button to answer incoming calls when the device is paired with a phone. Press again to end call.

2. Remote Shutter Button

- Open your mobile phone's camera, point it at what you want to take a picture of, Press the Remote Shutter Button (2) to take pictures. You can also use it to start your video camera. It's ideal for selfies that you want to take a long distance picture from. Place your phone across the room and use the speaker to snap a photo.
- **Note:** Ensure Bluetooth® is connected. Can be activated whilst music is playing.
- To access Siri or Google Now, press and hold (2) to activate voice assistant feature. Wait for sound and ask anything.

3. Bluetooth® Indicator Light:

- Rapid Flashing (2/s) Green LED light indicates that the speaker is in Bluetooth® Searching and Pairing Mode.

- Slow Flashing (1/s) LED light indicates that the phone is successfully paired. Red LED flashing indicates the right speaker and Green LED indicates the left speaker.

4. Charge Indicator Light

- Constant Red LED light whilst the device is charging.
- Constant Red and Blue light switch on when fully charged.

5. Microphone

6. Lanyard Hole

7. Micro USB Port (Power Input)

8. Speaker

PAIRING

- Press and Hold the Push Button (1) on both cubes until you hear the start-up chime. A Green LED light will be flashing on the left speaker and a Red LED light will be flashing on the right speaker.
- Switch on your Bluetooth® smart-device/-phone and wait until 'PRED Smart Cube Stereo' shows up on your screen. When 'PRED Smart Cube Stereo' appears on your device, select and pair with the speaker.

- When the pairing is complete, you will hear a message and the Red and Green LED light will flash slowly.

Note: Some mobile phones or other devices may pair automatically when re-started.

CHARGING

- Fully charge the speakers prior to first use.
- Plug the Dual Micro USB cable into the USB ports.
- The Red LED light will turn on to indicate the device is charging.
- The Red LED will flash slowly when the speaker is fully charged.

Power On/Off

Power ON: Press the Power Button (1) on both cubes and hold until a beeping sound is heard and the LED light flashes on both cubes.

To turn OFF: Press the Power Button on either of the cubes and hold, "Powering Down" will sound and the lights will switch off.
Note: It is strongly recommended that you turn off the speakers whilst not in use.

Precautions

- Do not submerge the product in water.
- Keep speakers away from water and moisture - do not get them wet.
- Keep speakers away from any heat source.
- Adjust volume to avoid damaging your hearing.
- Store and use in normal environments. Exposure to extreme elements such as fire, water, or other extreme elements may damage the units. Do not handle with wet hands.
- Keep debris or other items from blocking the speakers or from entering any of the ports.
- Charge the battery in an isolated area and keep away from flammable material.

- Do not disassemble, modify, short circuit or heat the battery.
- Do not place it in fire or leave in a hot place.
- Only charge the battery with the specified USB cable.
- In the unlikely event of leakage or explosion, use sand or a chemical fire extinguisher to extinguish.
- LiPo Battery must be recycled or disposed of properly.
- The Micro USB cable is tailor-made for the LiPo rechargeable battery used in your Smart Cube Stereo Shutter. Do not use it to charge any item other than the Smart Cube Stereo Shutter.

Troubleshooting

No Sound:

- Make sure that the music player is working and that the speakers are charged.
- Make sure Bluetooth® is paired with the correct speakers.

Not Charging:

- Check to make sure that you are using the correct cable and that it is fully plugged into both the device and the USB port that you are charging from. Also check to make sure the source is turned on.

Note

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning

the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or experienced radio/TV technician for help

This Device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
- This device complies with Industry Canada Licence-exempt RSS-210. Operation is subject to the following two conditions:
- (1) This device may not cause interference, and
 - (2) This device must accept any interference, including interference that may cause undesired operation of the device.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

For these purposes, the party responsible is: Pred Technologies USA Inc. 7855 Prospect Street Suite 310 La Jolla, CA 92037 1-858-999-2114

WARNING! This equipment may experience difficulty and/or memory loss when subjected to any electrostatic discharge, radio frequency interference, or sudden power surge/interruption. The user is encouraged to reset the equipment should any of these occur.

- Do not attempt to open or take apart these speakers. The speakers will be damaged during that process.

- If the speaker quality deteriorates, or a slight 'popping noise' is heard, it may be due to low battery. Please recharge the speakers.

- Only use a computer USB or the DC 5V power matching the Micro USB Cable (included) to charge.

- Do not attempt to open or take apart these speakers. These units have no user serviceable parts.

- Do not put any foreign objects in the USB port.

- Do not expose product to direct sunlight as it may result in a risk of battery exploding, overheating, or igniting.

Specifications

- Rated Power: 2W
- Frequency Response: 180HZ-16KHZ
- Distortion Factor: THD<1%
- Signal to Noise Ratio: S/N≥90DB
- Separation: ≥55DB
- Speaker: 23mm; 4Ω 2W
- Battery: Rechargeable Lithium-Polymer hAm081/V7.3
