Thank you for your order. We hope you will enjoy your new TOKK CAM S6 Camera. Below is our quick set up guide. If you want more details please refer to the complete instruction manual. If you encounter any issues setting up your new camera, please do not hesitate to call us and we will be very happy to help you. Our customer service phone number is +1 858 999 2114 ext 1. You can also check out our videos on how to set up and how to operate our TOKK Cams on our website (www.tokktech.com/tokk/cam-2), scroll down to the video section of the page.

First time set up:

- 1-Download the application called "iCookyCam" on your smart device (APP available on the App Store for iOS and Google Play for Android, make sure to download "iCookyCam" not the older version called "Cookycam").
- 2- If you have an SD card, insert it (2), --> in motion detection mode you will receive a notification and the footage will be recorded on the SD card, if you do not have an SD card you will receive a notification and will have to open the app and record manually, the footage or picture will be stored on your smart device.
- 3- Turn on the camera (1).
- 6- Go to WIFI settings on your smart device.
- 7- Wait until your camera name appears "iCooky_XXXXXX", it might take 2 to 3 minutes for the camera to set itself, so wait and refresh your wifi until the camera appears as a choice when it appears select it, (if you are asked for a password, type "12345678" and join), wait for iCooky to connect (disregard message like "unsecured network, or"/no internet access...") as long as "iCooky_XXXXXX", is selected as your wifi network go to the next step.
- 3- Open the app, and the following message will appear "device loading" and then "Do you want to connect the device to the router?"
 - if you want to connect your camera to your wifi to keep it at home and use it as a security camera press "Connect" then the wifi set up menu will appear, select the name of your Home Wifi router, type your password and press connect.
- 11-When you see the message "camera successfully added", and a screen with the camera status "online" you have successfully set-up with your TOKK Cam. Just press the play button to view the live feed.
